

Agriculture and Natural Resources

CAREER PATHWAYS

Enjoy working outdoors and/or working with animals? Careers in this pathway supply us with food products and alternative energies, preserve and protect our natural resources, and assure we have bountiful supplies of land to utilize in the future.

Note: In each potential pathway, the ability to transfer credits from one program level to the next is dependent on a variety of factors. Statewide articulation agreements may assist in these efforts but are not available for all potential career pathways. Ongoing guidance from academic career advisors and supervisors throughout your education and training pathway is recommended.

FIRST

Requires on-the-job training, work experience, and/or a high school diploma.

JOB	AVG HOURLY RATE*
